

It is my understanding that it is your intention to overturn our "Do Not Call" Law in the State of New Jersey. I think that this law is one of the greatest laws that has been instituted in our time period. It is so pleasant for my wife and I to have dinner with our children where we spend QUIET quality time with them and not with the 15 or more telemarketers that call with there ridiculous sales pitches. I would be greatful if you could leave me one of your home phone numbers so that I can have all of my calls forwarded to your house this way you can be bothered by them twice as much. In fact, please list all of your home phone numbers so that everyone in New Jersey who loves our law can also forward there calls to your homes. I'm sure your children won't mind answering the phone non-stop everyday. Get my drift!!!!!!! Leave our law alone and find something more constructive to do, like fighting the violence and sex that we are bombarded with on TV and Radio. Take on the big boys and make yourself proud!!!!

Thank You, Mark Fahey
